

OPTIMA

A high output water hazer, using the new WHISPER technology.

Available with fan speed regulator, for even more quiet operation.

Features:

- High output, integrated fan.
- Continuous operation, with no down-time or reduced output.
- WHISPER™ technology, features dual heat exchangers, with an integrated silencer, eliminates spray sound from the output nozzle.
- Variable output.
- Long-life stainless steel / copper heater.
- Platinum temperature sensor.
- On-board remote control docking facility.
- Full digital electronics.
- Optional fan speed regulator.
- Warm-up time 3-5 minutes only.
- Remote control with 5m cord. Features status indicator, control of haze on/off & output.

Optima is developed with uncompromising quality, and it features the new Whisper technology, with dual heater chambers, and an integrated silencer. Full digital control, and a high quality temperature sensor made with platinum.

It produces a clean, dry waterbased haze, with no residues. The machine operates very quietly, and by using the optional fan speed regulator, it will operate virtually silent. Variable output is offered in two levels. Manual "easy-to-use" remote controller, and on-board remote control docking facility. The high quality, low weight and compact size makes Optima ideal for rental companies, mobile use or theatre. The reservoir of the Optima has a maximum capacity of 5 Litres for hours of continuous operation without refilling. The Optima uses Swefog XTR waterbased haze fluid.

Specifications:

Type:	Waterbased haze generator
Fluid type:	Waterbased, Swefog XTR haze fluid.
Fluid consumption:	Approx. 0.3 ltr / hour cont. oper.
Dimensions / weight:	W203 D405 H573mm / 12kgs.
Power supply:	240V 50Hz 700W.
Warranty:	1 year (parts & labor).

NEUTRAL-PRO
Item no. 13 105

Waterbased smoke fluid, compatible with most smoke machines on the market.

Creates a white, odorless smoke with very long lasting.

Made with medical-grade chemicals. The fluid does NOT contain Propylene glycol or sprits.

One of the best fluids available on the market.

NEUTRAL-HAZE
Item no. 13 205

Water-based haze fluid, made for use in vaporizing smoke machines, compatible with most machines on the market.

Creates a white, odorless haze with long lasting.

Made with medical-grade chemicals.

Suitable for theatre, concerts etc. where a light haze is wanted.

XTR PRO-HAZE
Item no. 13 405

Waterbased extra light haze fluid, special-made for waterbased hazers. Compatible with many haze machines on the market.

Creates a very light, silky and odorless haze with medium-long lasting.

Made with medical-grade chemicals. The fluid does NOT contain Propylene glycol or sprits.

Original fluid made for the Optima hazer.

ULTIMATE C-FLUID
Item no. 13 605

Medical-grade oil based fluid, compatible with most pneumatic cracker hazers on the market.

Creates a very light haze, which is virtually invisible until it is illuminated.

Very long lasting, 3+ hours hangtime

Original fluid made for the Ultimate hazer range.

ULTIMATE CXL-FLUID
Item no. 13 805

Medical-grade oil based fluid, similar to the C-fluid. The CXL fluid creates an extremely light haze, suitable for theatre, TV-studios, or anytime where an extra light haze is wanted.

The haze is virtually invisible until it is illuminated.

Very long lasting, 3+ hours hangtime

Made with very high quality chemicals, original fluid made for the Ultimate hazer range.
